

SQUID GAME SHOWS A DARK TRUTH

Squid Game has taken the world by storm, becoming the top Netflix show in more than 90 countries. Whenever I log onto social media, I see heated discussions about the show's plot and characters.

The story is about people who are in debt and participate in childhood games for the chance to win 45.6 billion won (HK\$298.99 million). However, if they fail one of the games, they die. While it is entertaining, the drama also shows the darkest sides of humanity.

Many questions about the show have surfaced – why was the game created? Who are the masked men? Will the game restart?

I am a huge fan of this drama and believe this will be another legendary show that will go down in history.
